Brand Manual v1.0

Draft for Emmanuel's approval

REGO PARK COUNSELING · QUEENS, NY

Care close to home.

How we look, sound and show up for a neighbor in Queens who is ready to ask for help — often for the first time.

12 Checklist

01 Brand essence

The neighborhood clinic where people in Queens get licensed mental health and substance use care close to home — covered by the Medicaid most of them already have.

THE FEELING WE LEAVE

Relief.

In five seconds, without reading a paragraph: *"They're near me, they take my insurance, and calling is easy."*

WHAT MAKES RPC DIFFERENT

1 Both licenses, one roof.

OASAS for substance use, OMH for mental health — including dual diagnosis.

2 Local on purpose.

Rego Park, Fresh Meadows, Yonkers soon. Three clinics, one team, one number.

3 Medicaid is the front door.

Most patients use it. CORE and the Social Care Network go beyond therapy.

4 Fast, practical help.

Substance use and DWI evaluations, done correctly.

5 **Health, not judgment.**

Addiction is a chronic illness, treated with a plan made for you.

PERSONALITY

not distant

Never clinical-cold. Never salesy. Never dramatic.

02 Logo

We keep the logo exactly as it is. We only refresh how it's placed, spaced and paired. Never redraw, recolor or rebuild it.

CLEAR SPACE

X = ½ the emblem's height. Nothing — text, photo edge, button — enters this zone.

A similarly named center at 97-77 Queens Blvd is often confused with us. Wherever the logo appears in the header or footer, our own address and phone sit beside it: **63-36 99th Street, Rego Park • (718) 459-2558**. No faith-based symbols, colors or wording — ever.

03 Color

Pulled straight from the logo's cyan and magenta, then tuned so every word passes WCAG AA. One rule above all: **magenta means "talk to us."** It appears only on call and callback actions.

- 5** Addiction and mental health are health issues. No judgment here.

SAY THIS / NOT THIS

✓ USE	✗ AVOID
counseling, outpatient care, clinic	rehab, residential, inpatient, detox, facility
substance use, alcohol or drug use	addict, abuser, clean / dirty
"We work with most Medicaid plans"	naming plans, "all insurance accepted"
Licensed by OASAS and OMH	OASIS, accredited, certified
evaluation, assessment	legal advice, court guarantees
"Talk to someone today"	countdowns, "act now"

REWRITES

~~Our comprehensive rehab facility offers intensive treatment for addicts seeking recovery.~~

Outpatient help for alcohol and drug use. No judgment.

~~We accept all insurance plans! Call now — spots are limited!~~

We work with most Medicaid plans. Ask us.

~~Our DWI evaluations will help you win your court case.~~

Need a DWI evaluation? We do them fast and right.

SPEAKING TO EACH VISITOR

Anxiety, depression, trauma

"You don't have to go far to feel better."

Alcohol or drug use

"Outpatient. You go home every night."

Court, DWI, employer

"Here's what to bring. Here's how long."

Family members

"You can call for someone you love."

Older adults & caregivers

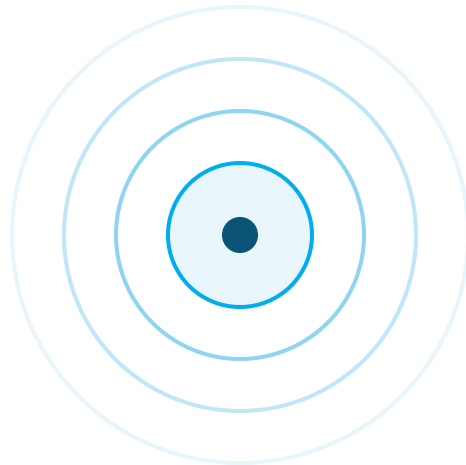

"We see people of every age."

HARP / CORE members

"Support beyond therapy. Here's who qualifies."

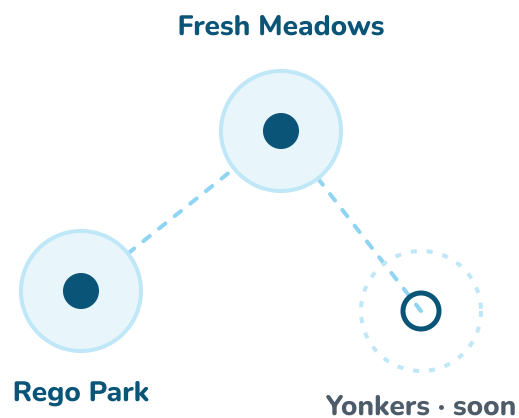

06 The Nearby Ring

Our signature graphic. It takes the logo's circle and turns it into a radius around home — "close to home," drawn. It's our map, our texture, and our location marker.

Core ring

4 rings, 2px lines, fading from Cyan to Sky Wash. One Harbor dot at the center — home.

Three clinics, one team

Dashed line joins the clinics. A hollow dot means "opening soon." Not a literal map — use real maps on Location pages.

Talk to someone today.

As texture

Cropped off a corner behind CTA bands. Lines only — never behind body text.

✓ One ring per screen, max.

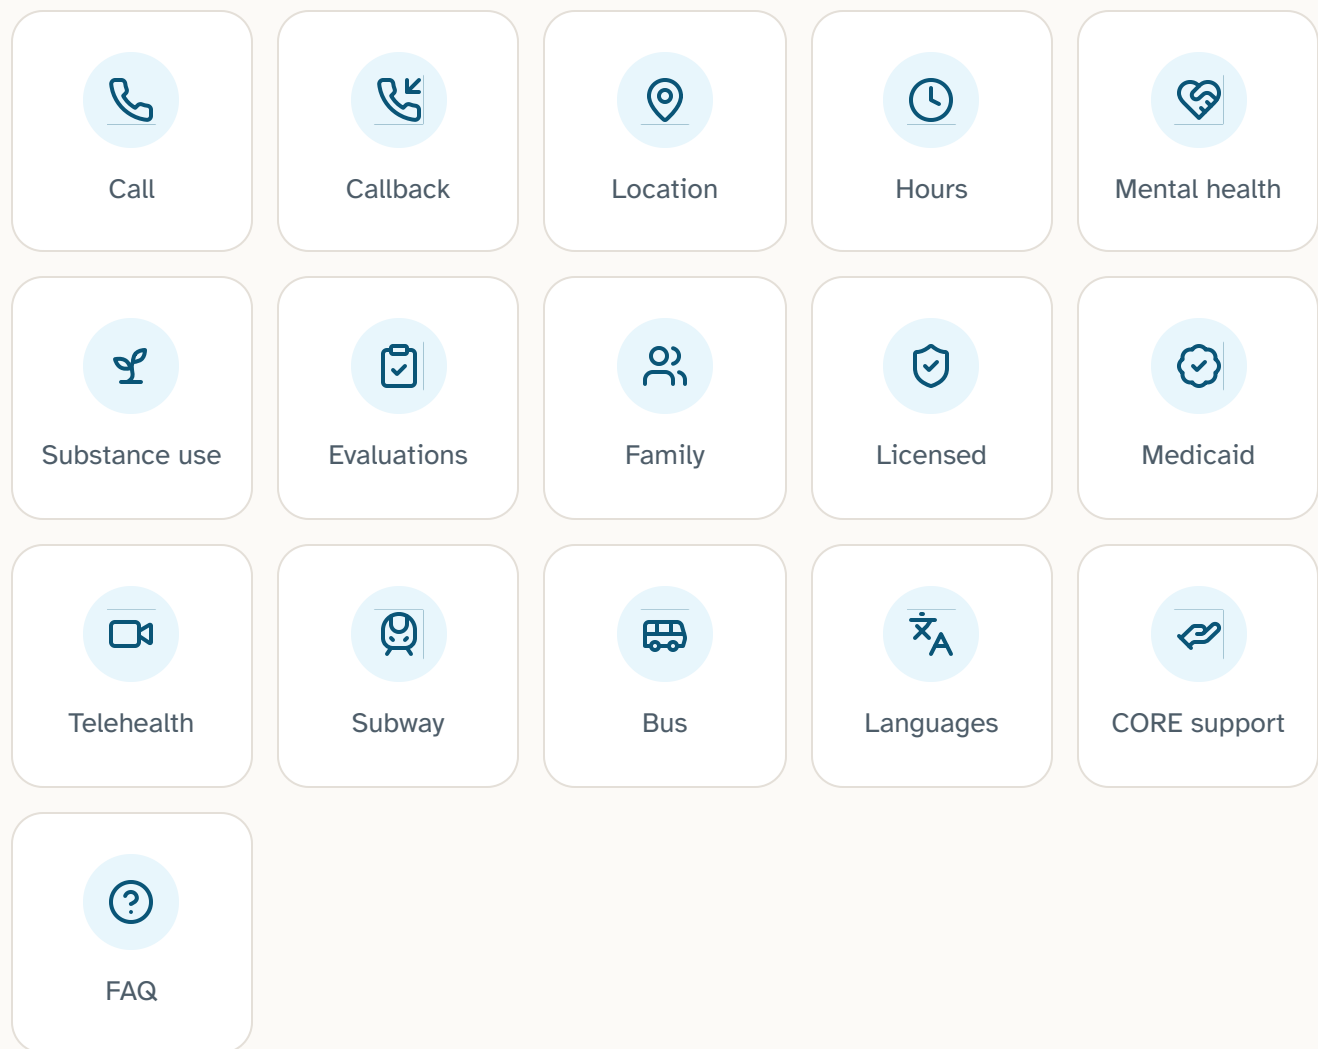

✓ Crop it off an edge; let it breathe.

✗ No magenta rings, no targets, no pulses.

✗ No crosses, halos or religious shapes.

07 Icons

Lucide line icons: 2px stroke, rounded ends, one color (Harbor Blue). 24px default, 20px inline, in a 48px Sky Wash circle when used as a feature marker.

Never: pills, syringes, bottles, medical crosses, hospital buildings, handcuffs, or filled/duotone icons.

08 Photography

Real people, real rooms, real Queens. Natural light, warm and bright. Emmanuel's own team — never stock.

[team portrait • Rego Park
front desk]

Staff at eye level, smiling softly,
window light.

[63rd Dr / 99th St street
corner]

Recognizable Queens context.

[waiting area • daylight]

Open, tidy, human-scale.

[counselor + older adult • back
of head]

Patients never identifiable.

[hands • cup of tea on table]

Detail shots for service pages.

✓ Shoot

- RPC staff, clinic fronts, rooms and waiting areas
- Street corners, subway, storefronts near each clinic
- Ages and backgrounds that look like Queens — including older adults
- Backs of heads, hands, or clearly labeled models for "patients"
- Natural light, +5 warmth, lifted shadows

✗ Never

- Pills, syringes, bottles, handcuffs
- Head-in-hands, crying, dark or gloomy filters
- Therapy-couch clichés, beds, retreat campuses
- Identifiable faces implying someone is in treatment
- Anything that reads faith-based or hospital

Corners

16–20px radius. No circles for photos.

Format

WebP, ≤ 150KB hero, ≤ 80KB cards.

Alt text

Every photo. Describe, don't sell.

No text on photos

Headlines sit beside images, not on them.

09 Space & shape

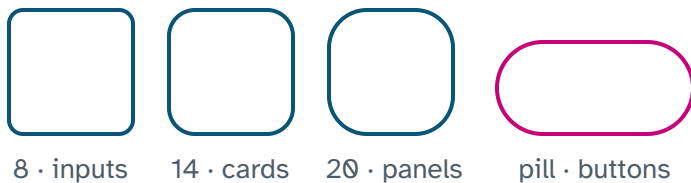

Open space is part of "calm." Everything snaps to a 4px base. Buttons are pills — round like the logo's emblem.

Brand & claims

- Outpatient only — no rehab, inpatient or detox
- No IOP, MAT, Suboxone or Vivitrol
- OASAS spelled right, never OASIS
- No insurance plans named, no "all plans"
- RPC address + phone next to logo and in footer
- Psychiatry, couples, LGBTQ+ pages wait for confirmation

Accessibility · WCAG 2.1 AA

- Body text $\geq 16\text{px}$, contrast $\geq 4.5:1$
- Tap targets $\geq 44\text{px}$ (we use 48)
- Visible Harbor focus ring on every control
- Alt text on every photo
- Color is never the only signal

Speed · target 85+ mobile

- Two font families, four weights total
- WebP photos, lazy below the fold
- No sliders, no autoplay video
- Motion: 200ms fades only, respect reduced-motion

- Phone numbers as live text for CTM
