

Rego Park Counseling — Header & Home Page Brief

Sep 29, 2026 · @jhonatan

The home page must win the broad Queens therapy searches ("therapist queens", "counselors in queens", "mental health clinic queens") and turn visitors into calls, so it is built complete, scannable and local.

Header and navigation

The header is logo left, seven menu items in the center, phone and one button on the right. Every commercial page on the site is reachable from it in one hover.

Top utility bar (thin, above the header, desktop only)

- Left: "Licensed by NYS OASAS and OMH · Most Medicaid plans accepted · Telehealth available"
- Right: "Rego Park · Fresh Meadows · Yonkers (opening soon)", each linking to its location page

Main header

Zone	Content	Notes
Left	Existing RPC logo, links to /	SVG, max 48 px tall, alt "Rego Park Counseling"
Center	7 menu items (below)	Dropdowns open on hover (desktop) and tap (mobile)
Right	Phone (718) 459-2558 as click-to-call text + button Request a Callback	The only accent-colored button in the header. Phone becomes a CTM number

Menu items and the pages under each

1. **Mental Health** → /mental-health/
 - Anxiety Counseling
 - Depression Counseling
 - PTSD & Trauma Counseling

- Bipolar Disorder Counseling
- Schizophrenia Counseling
- Anger Management
- Psychiatry (add only once confirmed)

2. **Substance Use** → /substance-use/

- Outpatient Substance Use Treatment (the hub)
- Alcohol Use Treatment
- Drug Use Treatment
- Dual Diagnosis

3. **Evaluations** → /evaluations/

- Substance Abuse Evaluation
- DWI Evaluation

4. **Programs** → /programs/ (mega menu, three columns)

- Programs: CORE (HARP), Social Care Network, Telehealth
- Who We Serve: Older Adults, Court-Involved, LGBTQ+ Affirming Care (once confirmed)
- Therapies: Individual, Group, Family, Couples (once confirmed)

5. **Locations** → /locations/

- Rego Park (main clinic)
- Fresh Meadows / Flushing
- Yonkers (opening soon)

6. **Insurance** → /insurance/ (no dropdown)

7. **About** → /about/

- About Us
- Our Team
- Blog
- Contact

Why this order: the three biggest search clusters (mental health, substance use, evaluations) come first, and Locations sits in the menu because the local map packs are the main growth lever.

Mobile header

- Logo left, phone icon and hamburger right. The menu opens full screen with the 7 items as accordions.
- A sticky bottom bar on every page: **Call | Request a Callback.**

Footer (repeats the key links for crawling and trust)

- One block per clinic: name, full address, phone, hours, map link. This is the NAP that must match each Google Business Profile exactly.
- Link columns: Mental Health, Substance Use, Evaluations, Programs, and a column with About, Insurance, Blog, Contact.
- Licensing line (OASAS, OMH), privacy, HIPAA notice, telehealth privacy, accessibility.
- One line: "Rego Park Counseling is an independent clinic." (brand separation from the similarly named center).

Home SEO targets

The home page owns the broad Queens therapy and counseling searches; the service, location and evaluation pages own everything more specific. Positions are Semrush US, Sept 28, 2026.

Keyword	Monthly searches	Home ranks today	Role
therapist queens	1,300	#6	Primary. Biggest win available: top 3 roughly triples clicks
therapist in queens	720	#4	Primary (same intent)
counselors in queens / best counselors in queens	110 / 90	#1 to #3	Protect
counseling for adults queens / therapy for adults queens	110 / 90	#3 / #4	Protect
therapist queens ny	110	#5	Secondary
queens counseling center	140	#15	Secondary
therapy queens	90	#16	Secondary

Keyword	Monthly searches	Home ranks today	Role
mental health clinic queens	110	#41	Supports the /mental-health/hub, which is the main target page
rego park counseling (+ "center", "mental health and substance abuse counselors")	320 + 110 + 110	#1	Brand: protect and separate from the Jewish Board center
depression counseling queens / depression therapist queens	90 / 90	#1 / #6	Hand off to /mental-health/depression-counseling/; home keeps a strong link to it

Do not target: "97 77 queens blvd rego park" (the Jewish Board center's address), "queens consultation center" or other clinics' names. Home ranks for them today only through confusion.

Title tag (≤ 60 characters)

Therapist in Queens, NY | Rego Park Counseling

Meta description (≤ 155 characters)

Licensed outpatient therapy and substance use counseling in Rego Park and Fresh Meadows, Queens. Most Medicaid plans accepted. Request a callback today.

H1 (one per page)

Therapists and Counselors in Queens, Close to Home

URL: <https://www.regoparkcounseling.com/>

Home page, section by section

The page runs 14 sections and about 1,400 to 1,700 words of indexable text, but reads short: every section is a heading, one or two sentences and cards, with depth inside tabs and accordions that stay in the HTML. Headings below are working copy for Pavel to refine; keywords in each H2 are deliberate.

1. Hero

- **Purpose:** in 5 seconds, say who, where, what insurance, and how to reach us.
- **H1:** Therapists and Counselors in Queens, Close to Home
- **Subhead (1 sentence):** Licensed outpatient care for mental health and substance use in Rego Park and Fresh Meadows. Most Medicaid plans accepted.
- **Buttons:** Request a Callback (primary) · Call (718) 459-2558 (secondary)
- **Visual:** real photo of the RPC team or clinic, bright and calm. No stock, no text baked into the image.
- **Words:** about 35.

2. Trust bar

- Four short items with icons: Licensed by NYS OASAS and OMH · Most Medicaid plans accepted · In person and telehealth · Two Queens clinics, Yonkers opening soon.
- Add the Google rating here only once the review program lifts it (3.2 from 20 today).

3. Quick callback form (inline, right under the trust bar on mobile)

- **H2:** Talk to someone this week
- **Fields:** name, phone, preferred clinic, "what can we help with". Posts to CTM with source.

4. How we can help

- **H2:** Mental Health and Substance Use Counseling in Queens
- **Intro (2 sentences):** One clinic for your mind and your recovery. Our licensed counselors treat both, including when they happen together.
- **Three large cards, each with 1 sentence and a link:**
 - Mental Health Counseling → </mental-health/>
 - Outpatient Substance Use Treatment → </substance-use/>
 - Substance Abuse and DWI Evaluations → </evaluations/>
- **Words:** about 90.

5. Conditions we treat

- **H2:** What We Help With

- A grid of 10 linked chips, each with a 1-line description: Anxiety, Depression, PTSD and Trauma, Bipolar Disorder, Schizophrenia, Anger, Alcohol Use, Drug Use, Dual Diagnosis, DWI and Court-Ordered Evaluations. Every chip links to its page.
- This is the main internal-linking block. Anchors use the page's target phrase ("anxiety counseling", "alcohol use treatment").
- **Words:** about 150.

6. Our clinics (the local SEO section)

- **H2:** Counseling Near You in Rego Park, Fresh Meadows and Yonkers
- **Three location cards:** photo, clinic name, full address, phone, hours, "Get directions", "View clinic" → location page. Yonkers card says "Opening soon, join the list".
- Under the cards, one sentence per clinic naming nearby neighborhoods and transit. Proposed (confirm with Emmanuel): Rego Park near Forest Hills, Elmhurst, Middle Village and Kew Gardens, M and R trains at 63rd Drive; Fresh Meadows near Flushing, Hillcrest, Bayside and Jamaica Estates.
- Embedded map with both pins (lazy-loaded).
- **Words:** about 150.

7. Insurance and Medicaid

- **H2:** We Accept Most Medicaid Plans
- **Copy (2 to 3 sentences):** Most of our patients use Medicaid. Call us and we will check your plan before your first visit. We also offer CORE services for HARP members.
- Link → /insurance/ and /programs/core/. Never list plan names.
- **Words:** about 60.

8. Programs and who we serve

- **H2:** Programs for Every Stage of Life
- Six small cards: CORE (HARP), Social Care Network, Telehealth, Older Adults, Court-Involved, Individual, Group and Family Therapy. Each links to its page.
- **Words:** about 120.

9. How it works

- **H2:** Getting Started Is Simple

- Three numbered steps: 1. Call or request a callback. 2. We check your insurance and book your first visit. 3. Meet your counselor in person or by telehealth.
- **Words:** about 60.

10. Why Rego Park Counseling

- **H2:** Why Queens Families Choose Rego Park Counseling
- Four points, 1 to 2 sentences each: Licensed for both mental health and substance use · Close to home, near the trains · Care that treats addiction as health, not a moral failing · A team that reflects Queens (add languages spoken once confirmed).
- **Words:** about 120.

11. Meet the team

- **H2:** Meet Our Counselors
- 3 to 6 real staff photos, name, credential, languages. Link → </about/our-team/>. Supports E-E-A-T and Emmanuel's request for real photos.

12. Reviews

- **H2:** What People Say About Rego Park Counseling
- Only real Google reviews, shown with the reviewer's first name as it appears on Google, never edited, never invented, never implying a diagnosis. Link to leave a review. Skip this section at launch if the reviews are not strong enough yet.

13. FAQ (accordion, all answers in the HTML)

- **H2:** Questions About Counseling in Queens
- 8 questions, 40 to 70 words each:
 1. Do you accept Medicaid?
 2. Where are your clinics in Queens?
 3. Do you offer telehealth?
 4. Do you treat mental health and substance use together?
 5. How do I get a substance abuse or DWI evaluation?
 6. What happens at the first appointment?
 7. Is counseling confidential?

8. Are you connected to the Rego Park Counseling Center on Queens Boulevard? (No: independent clinic, our addresses are ...)

- **Words:** about 450. This block feeds FAQ schema and AI-answer engines.

14. From the blog + final call to action

- **H2:** Helpful Reading
- 3 posts chosen by hand from the strongest performers that match home topics (e.g. the Medicaid and evaluation posts), not "latest posts".
- **Final band H2:** Ready to Talk? We're Here to Help.
- Full callback form + phone, repeated.

Internal links from the home page (checklist)

- ☐ All 3 hubs (Mental Health, Substance Use, Evaluations) from section 4
- ☐ All 10 condition and service pages from section 5
- ☐ All 3 location pages from section 6
- ☐ /insurance/ and /programs/core/ from section 7
- ☐ All 6 program and audience pages from section 8
- ☐ /about/our-team/ from section 11
- ☐ 3 blog posts from section 14

Schema and technical SEO

The home page carries the organization-level schema; each location page carries its own clinic schema. None exists on the site today.

Structured data (JSON-LD, one graph)

Type	Key properties	Notes
MedicalOrganization (Organization)	name, url, logo, telephone, sameAs (Google profiles, social), department → the location MedicalClinic entities	The umbrella brand. name is exactly "Rego Park Counseling"

Type	Key properties	Notes
MedicalClinic × 2 (Yonkers added at opening)	name, address, geo, telephone, openingHours, medicalSpecialty (Psychiatric, Addiction), url of the location page	Full version lives on each location page; home references them by @id
WebSite	name, url	No search box
FAQPage	the 8 home FAQs, text identical to the page	Google shows few FAQ rich results now, but the markup still helps AI answers

Do not add Review or AggregateRating markup for the clinic's own reviews (Google ignores self-serving review markup and it risks a manual action).

On-page rules

- One H1. H2 per section as written above. No H tags used just for styling.
- Every image: WebP, descriptive file name (rego-park-counseling-team-queens.webp), alt text describing the photo, not stuffed with keywords.
- Canonical: https://www.regoparkcounseling.com/. Index, follow. Included in the XML sitemap.
- Open Graph and Twitter image: a real clinic or team photo, 1200 × 630.
- NAP in the page and footer matches the Google Business Profiles character for character.

Speed targets (mobile)

- PageSpeed 85+ (today 53 to 55). LCP under 2.5 s (today 14 to 17 s in the lab), CLS under 0.1, INP under 200 ms.
- Hero image under 120 KB, preloaded, with width and height set. No slider, no video in the hero.
- Maximum two font families, self-hosted, font-display: swap. Map and reviews widget lazy-load below the fold.
- Elementor: flexbox containers only, no unused widgets, CSS print method "external". Page cache and Cloudflare in front; test NitroPack against the CTM form before enabling.

Tracking and pre-launch checklist

Every call and callback from the home page must reach CTM with its source, and nothing on the page may break a compliance rule.

Tracking

- ☐ Header, hero, location cards and footer phone numbers swap to CTM numbers (dynamic number insertion), one pool per clinic
- ☐ Both callback forms (section 3 and final band) post to CTM with source, page and chosen clinic. Coordinate with Oriana
- ☐ GTM-T3S8L3WL and GA4 320939576 kept; GA4 events: `click_to_call`, `callback_submit`, `directions_click`, with a `location` parameter
- ☐ Thank-you page (noindex) fires the conversion

Compliance and brand safety

- ☐ Says "outpatient"; no IOP, detox, inpatient or residential wording or imagery
- ☐ OASAS spelled correctly; OMH named
- ☐ No insurance plan names; no "all insurance accepted"
- ☐ No MAT, Suboxone or Vivitrol offer; no psychiatry, couples or LGBTQ+ claims until confirmed
- ☐ RPC addresses and phone visible; FAQ answer separating RPC from the Queens Boulevard center
- ☐ No link to or mix with the primary care company's site beyond a small labeled link, if any
- ☐ Existing logo used; real photos only

Needed from Emmanuel before this page is final: clinic hours, team photos and credentials, languages spoken, confirmation of the neighborhoods and transit lines named in section 6, and the Yonkers address.
