

Rego Park Counseling — Mental Health Pages Content

Sep 30, 2026 · @jhonatan

Ready-to-build copy for the Mental Health section: the hub plus six condition pages (Psychiatry waits for confirmation). Each page targets one Queens search cluster, reads in under a minute, and ends every section with a way to call. Text in [brackets] still needs a fact from Emmanuel.

Shared rules for all 7 pages

Every condition page uses the Service template with the same 10 sections, so users learn the pattern and Google sees a consistent, deep cluster.

Section order (condition pages)

1. Hero: H1, 1-sentence subhead, Request a Callback + phone, trust line
2. What it is / signs (short list)
3. How we help (our approach, 3 cards)
4. What to expect (3 steps)
5. Where to get care (Rego Park and Fresh Meadows cards + telehealth)
6. Insurance line (Medicaid)
7. Related services (3 linked cards)
8. FAQ (5 to 6 questions, all answers in the HTML, FAQPage schema)
9. Crisis note (988 / 911)
10. Final callback band

Length: 800 to 1,000 words per condition page, 700 to 900 for the hub. Scannable: headings, bullets, cards, accordion FAQ.

Compliance on every page

- Outpatient counseling only. No inpatient, detox, residential or "rehab" wording.
- No medication, prescribing or psychiatry claims until psychiatry is confirmed. Where medication comes up, say "we can coordinate with your doctor or psychiatrist" [confirm this is accurate].

- Therapy approaches named as examples only after the team confirms them: CBT, DBT, trauma-focused therapy, motivational interviewing, family therapy [confirm which ones the clinicians use].
- Licensed by OMH (mental health) and OASAS (substance use). Never "OASIS".
- "Most Medicaid plans", never plan names.
- No guaranteed outcomes ("cure", "fix", "100%").
- Crisis line on every page: 911 for danger, 988 Suicide & Crisis Lifeline 24/7.

Schema per page

MedicalWebPage with about → MedicalCondition (name of the condition), audience → Patient, lastReviewed + reviewedBy → the clinical reviewer (once named), provider → the MedicalOrganization @id; plus FAQPage and BreadcrumbList (Home > Mental Health > page).

Internal links on every condition page: up to /mental-health/, across to 3 related pages, to both location pages, to /insurance/, and to 2 or 3 related blog posts. Anchor text uses the target page's phrase.

Old URLs redirected into each page are listed in its SEO table so Pavel keeps the strongest existing wording.

Intro

H2: Outpatient Mental Health Care, Close to Home

Life in Queens moves fast, and sometimes the stress, sadness or worry does not let up. Rego Park Counseling is a licensed outpatient mental health clinic where you can talk to a counselor near home, on a schedule that fits your life. You keep living at home, working and caring for your family while you get support.

What we help with (the main link block)

H2: Conditions We Treat

Six cards, each with a 1-sentence description and a link:

- **Anxiety** — Constant worry, panic attacks or fear that gets in the way of daily life. → Anxiety Counseling
- **Depression** — Sadness, low energy or loss of interest that lasts for weeks. → Depression Counseling
- **PTSD and trauma** — Memories, fear or numbness after something painful happened. → PTSD & Trauma Counseling
- **Bipolar disorder** — Mood swings between highs and lows that affect work and relationships. → Bipolar Disorder Counseling
- **Schizophrenia** — Ongoing counseling and support to stay stable and connected. → Schizophrenia Counseling
- **Anger** — Anger that hurts your relationships, work or health. → Anger Management

Below the cards, one line: "Also struggling with alcohol or drugs? We treat both together."
→ Dual Diagnosis

How care works

H2: How Outpatient Counseling Works at Rego Park Counseling

1. **First call.** Tell us what is going on and we check your insurance.
2. **Assessment.** A licensed clinician meets with you to understand your needs and goals.
3. **Your plan.** Individual, group or family sessions, in person or by telehealth, usually once a week [confirm typical frequency].

Types of therapy

H2: Therapy Options

Three cards linking to the Therapies pages: Individual Therapy · Group Therapy · Family Therapy. One line under them: "Telehealth sessions are available for many services." → Telehealth

Where to get care

H2: Mental Health Counseling in Rego Park and Fresh Meadows

Two location cards (address, phone, hours, directions, View Clinic). Fresh Meadows card gets a small label: "Now welcoming new mental health patients" [confirm with Emmanuel].

Insurance

H2: We Accept Most Medicaid Plans

Most of our patients use Medicaid. Call us and we will check your plan before your first visit. HARP members may also qualify for CORE services. → Insurance · CORE

Why us

H2: Why Choose Our Queens Mental Health Clinic

- Licensed by New York State (OMH and OASAS), so we can treat mental health and substance use together
- Near the trains and buses in Rego Park and Fresh Meadows
- Counselors who reflect the Queens community [add languages]

- No judgment, ever

FAQ

H2: Mental Health Clinic FAQs

1. **What is an outpatient mental health clinic?** A clinic where you visit for counseling sessions and go home the same day. You keep your normal routine while getting regular care from licensed clinicians.
2. **Do you accept Medicaid?** Yes. We accept most Medicaid plans. Call us and we will confirm your coverage before your first appointment.
3. **Do I need a referral?** [Confirm.] Most people call us directly. If a doctor, case manager or court referred you, let us know when you call.
4. **Do you offer telehealth?** Yes, telehealth sessions are available for many services. Ask about it when you call.
5. **How soon can I be seen?** [Confirm typical wait.] Call us and we will find the first available appointment at the clinic nearest you.
6. **Is my information private?** Yes. Your care is confidential and protected by HIPAA and New York State law.

Crisis note

If you are in danger, call 911. For a mental health crisis, call or text 988, the Suicide & Crisis Lifeline, 24/7.

Final band

H1: Anxiety Counseling in Queens

Subhead: Worry, panic and stress can take over your day. Our licensed counselors in Rego Park and Fresh Meadows can help you feel steady again.

Buttons: Request a Callback · Call (718) 459-2558

Trust line: OMH-licensed clinic · Most Medicaid plans · In person or telehealth

Signs

H2: When Anxiety Becomes Too Much

Everyone feels nervous sometimes. Anxiety may need care when it:

- Keeps you worrying most days, even about small things

- Brings panic attacks: racing heart, short breath, feeling out of control
- Makes you avoid places, people or tasks
- Disturbs your sleep or leaves you tense and tired
- Gets in the way of work, school or family

How we help

H2: How Our Anxiety Therapy Works

Three cards:

- **Understand what drives it.** Your counselor helps you spot the thoughts and situations that trigger your anxiety.
- **Learn tools that work.** Practical skills for calming your body and challenging worry, using evidence-based approaches such as CBT [confirm].
- **Build confidence step by step.** Face what you have been avoiding at a pace that feels safe.

One line: "If you also use alcohol or other substances to cope with anxiety, we can treat both together." → Dual Diagnosis

What to expect

H2: What to Expect

1. **Call or request a callback.** We check your insurance and find a time.
2. **First visit.** A licensed clinician learns about your anxiety and your goals.
3. **Regular sessions.** Individual or group sessions, in person or by telehealth, with a plan you help shape.

FAQ

H2: Anxiety Counseling FAQs

- 1. **Can therapy really help anxiety?** Yes. Talk therapy is one of the most studied treatments for anxiety. Many people learn skills in counseling that reduce worry and panic over time.
- 2. **How long does anxiety counseling take?** It depends on the person. Many people notice changes within a few months of regular sessions. Your counselor reviews progress with you along the way.
- 3. **Do you treat panic attacks?** Yes. We help people understand what happens in the body during panic and learn ways to calm it and prevent the next one.
- 4. **Can I do anxiety therapy online?** Yes. Telehealth sessions are available for many patients. Ask about it when you call.
- 5. **Do you accept Medicaid for anxiety counseling?** Yes, we accept most Medicaid plans. We confirm your coverage before your first visit.
- 6. **Do you prescribe anxiety medication?** [Only if psychiatry is confirmed. Otherwise:] We provide counseling. If medication could help, we can coordinate with your doctor.

Hero

H1: Depression Counseling in Queens

Subhead: When the sadness, tiredness or emptiness won't lift, you don't have to push through alone. Talk to a licensed counselor near home.

Buttons + trust line: as standard.

Signs

H2: Signs of Depression

Depression is more than a bad week. Reach out if, for two weeks or more, you notice:

- Feeling sad, empty or hopeless most of the day
- Losing interest in things you used to enjoy
- Sleeping or eating much more or much less
- Feeling tired, slow or unable to focus
- Feeling worthless or guilty

- Pulling away from family and friends

If you have thoughts of harming yourself, call or text 988 now.

How we help

H2: How Depression Therapy Helps

- **A safe place to talk.** Share what you are carrying with someone trained to listen without judgment.
- **Practical steps forward.** Work on thoughts, habits and routines that keep depression going, using approaches such as CBT [confirm].
- **Support around you.** Individual, group or family sessions, so the people close to you can help too.

One line: "For older adults, depression can look different. We also offer counseling for older adults." → Older Adults

What to expect

Standard 3 steps (call, first visit with a licensed clinician, regular sessions in person or telehealth).

FAQ

H2: Depression Counseling FAQs

1. **How do I know if it's depression or just stress?** Stress usually eases when the situation changes. Depression tends to stay for weeks and affects sleep, energy and interest in life. A licensed clinician can help you sort it out at your first visit.
2. **Does counseling work for depression?** Yes. Talk therapy is a well-established treatment for depression, and many people feel better with regular sessions.

3. **Do you offer group therapy for depression?** [Confirm.] Yes, group sessions let you connect with others going through similar things. → Group Therapy
4. **Can I see a counselor by telehealth?** Yes, telehealth is available for many patients.
5. **Does Medicaid cover depression counseling?** We accept most Medicaid plans and confirm your coverage before your first visit.
6. **What if I also drink or use drugs to cope?** That is common, and we treat both together.
→ Dual Diagnosis

Hero

H1: PTSD and Trauma Counseling in Queens

Subhead: What happened to you still matters, and healing is possible. Trauma-informed counseling near home, at a pace that feels safe.

Signs

H2: How Trauma Can Show Up

After a frightening or painful experience, you might notice:

- Memories, nightmares or flashbacks that feel real
- Avoiding people, places or conversations that remind you
- Feeling on edge, easily startled or unable to relax
- Feeling numb, detached or cut off from others
- Guilt, shame or anger that won't let go

Trauma can come from one event or from years of hard experiences, including in childhood.

How we help

H2: Trauma-Informed Care at Rego Park Counseling

- **Safety first.** You set the pace. You never have to share more than you are ready to.
- **Tools for today.** Learn ways to manage triggers, sleep and stress, using approaches such as trauma-focused CBT [confirm; add EMDR only if a clinician is trained].
- **Reconnecting.** Rebuild trust in yourself and your relationships, with family sessions if you want them.

One line: "Many people use alcohol or drugs to cope with trauma. We treat both together."
→ Dual Diagnosis

FAQ

H2: PTSD and Trauma Counseling FAQs

1. **Do I need a PTSD diagnosis to get help?** No. If something painful still affects your life, you can reach out. A licensed clinician will assess your needs at the first visit.
2. **Will I have to talk about the trauma right away?** No. Trauma-informed care starts with safety and trust. You decide what to share and when.
3. **Is this an inpatient PTSD program?** No. We provide outpatient counseling, so you live at home and come in for sessions or meet by telehealth.
4. **Do you offer trauma therapy online?** Yes, telehealth sessions are available for many patients.
5. **Can family members get support too?** Yes. Family therapy can help loved ones understand trauma and support your recovery. → Family Therapy
6. **Does Medicaid cover trauma counseling?** We accept most Medicaid plans and check your coverage before your first visit.

Hero

H1: Bipolar Disorder Counseling in Queens

Subhead: Mood highs and lows can shake up work, money and relationships. Ongoing counseling helps you find more balance, close to home in New York City.

Signs

H2: Living With Bipolar Disorder

Bipolar disorder causes shifts in mood, energy and activity. You may have:

- Periods of high energy, little need for sleep, racing thoughts or risky choices
- Periods of deep sadness, low energy and hopelessness
- Trouble keeping routines, jobs or relationships steady
- Worry that the next swing is coming

How we help

H2: How Counseling Supports Bipolar Disorder

- **Know your patterns.** Track moods, sleep and stress, and spot early warning signs.
- **Build steady routines.** Sleep, daily structure and coping plans that protect your stability.
- **Plan for hard times.** A relapse-prevention plan you and your loved ones can use, with family sessions if you want them.

Medication line (standard): "Many people with bipolar disorder also take medication. We can coordinate with your doctor or psychiatrist." [Update if psychiatry is confirmed.]

Hero

H1: Anger Management Counseling in Queens

Subhead: Anger is a normal feeling. When it starts hurting your relationships, job or health, counseling can help you take back control.

Signs

H2: When Anger Becomes a Problem

- Arguments that escalate fast or turn into yelling or threats
- Saying or doing things you regret later
- Trouble at work, at home or with the law because of anger
- Anger that shows up with drinking or drug use
- Feeling tense, irritable or "on a short fuse" most days

How we help

H2: How Anger Management Counseling Works

- **Find the triggers.** Understand what sets off your anger and what sits underneath it, like stress, trauma or substance use.
- **Practice new responses.** Learn skills to pause, calm down and communicate without blowing up.
- **Repair and prevent.** Rebuild trust with the people around you, individually or in group sessions. → Group Therapy

One line: "Anger and substance use often go together. We can help with both." → Substance Use

Needed from Emmanuel

These answers replace every [bracket] in the seven pages; Julian can send them as one list.

- ☐ Which therapy approaches the clinicians actually use (CBT, DBT, trauma-focused CBT, EMDR, motivational interviewing, family therapy)
- ☐ Is psychiatry or medication management offered? (changes the medication line and FAQ on 4 pages)
- ☐ Is a referral needed, and what is the typical wait for a first appointment?
- ☐ Typical session frequency (weekly?)
- ☐ Is group therapy offered for depression and anxiety, or only for substance use?
- ☐ Is anger management offered for court-referred clients, and in what format (class, group, individual)?
- ☐ Does Fresh Meadows want the "Now welcoming new mental health patients" label?
- ☐ Clinical reviewer name and credential for the reviewedBy schema and the reviewer line on each page
- ☐ Languages spoken by the mental health team
