

Rego Park Counseling — Locations Pages Content

Sep 30, 2026 · @jhonatan

Ready-to-build copy for the hub and the three clinic pages. Today RPC ranks for almost no neighborhood searches, and Fresh Meadows appears in no Queens map pack, so these pages are the site's biggest local SEO lever. Text in [brackets] still needs a fact from Emmanuel.

Shared rules for location pages

Each clinic page is the website twin of its Google Business Profile: same name, address, phone, hours and services, so Google trusts both and ranks the clinic in the map pack.

NAP consistency

- Name, address and phone written identically on the page, in the footer, in the schema and on the Google profile, character for character ("63-36 99th Street" everywhere, never "99th St" in one place).
- Each clinic gets its own CTM tracking number on the page, with the main number as the schema phone [confirm with Oriana how CTM handles the schema number].
- The Google profile's website link points to that clinic's page, not the home page (Cristofer).

Page structure (Location template)

1. Hero: H1 with the neighborhood, address, phone, hours, Get Directions, Request a Callback
2. Photo strip: real photos of this clinic (outside, entrance, waiting room, a counseling room)
3. Services at this clinic (linked cards)
4. Getting here: map, transit, parking, accessibility
5. Neighborhoods we serve (short paragraph)
6. Team at this clinic (2 to 4 faces, link to Our Team)
7. Insurance line
8. Local FAQ (5 questions)
9. Brand separation line (Rego Park page especially)

10. Final callback band with the clinic preselected

Length: 600 to 800 words per clinic page. Every page must be genuinely different: its own photos, transit, neighborhoods, services mix and FAQ. No copy-paste with the city name swapped.

Schema per clinic page: MedicalClinic (with @id , name, address, geo, telephone, openingHoursSpecification, medicalSpecialty, availableService → the services offered here, parentOrganization → MedicalOrganization @id , hasMap), plus BreadcrumbList and FAQPage .

Google profile alignment (for Cristofer): Rego Park primary category Addiction treatment center; Fresh Meadows primary category Mental health clinic (confirm against the live profiles). Products on each profile link to the service pages listed in "Services at this clinic".

1. Locations hub — /locations/

Field	Value
Title tag	Our Clinics in Queens & Yonkers Rego Park Counseling
Meta description	Find Rego Park Counseling clinics in Rego Park and Fresh Meadows, Queens, with Yonkers opening soon. Addresses, hours, directions and phone numbers.
H1	Our Clinics
Primary keyword	counseling center queens / queens counseling center (140/mo, #15)
Secondary	outpatient counseling near me · mental health clinic near me (local intent)
Old URLs merged in	/drug-and-alcohol-treatment-centers-queens-ny/ ("Communities We Serve")
Target length	About 350 words

Hero

H1: Our Clinics

Subhead: Licensed outpatient counseling in two Queens neighborhoods, with a Yonkers clinic opening soon. Choose the one closest to home.

Clinic cards (the core of the page)

H2: Find a Clinic Near You

Three cards, each with photo, name, address, phone, hours, "Get Directions" and "View Clinic":

- **Rego Park (main clinic)** — 63-36 99th Street, Rego Park, NY 11374 · (718) 459-2558
- **Fresh Meadows** — [71-82 Parsons Boulevard], Fresh Meadows, NY 11365 · [phone]
- **Yonkers** — Opening soon · "Get notified"

One map with all pins below the cards (lazy-loaded).

Services at a glance

H2: Services at Each Clinic

A simple comparison table, filled once Emmanuel confirms what each clinic offers:

Field	Value
Secondary	substance use treatment yonkers · counseling yonkers ny
Schema at launch	None for the clinic (no address yet). Add <code>MedicalClinic</code> only when the address and opening date are confirmed
Target length	About 300 words now; 650 to 800 at opening

Hero

H1: Counseling in Yonkers, NY — Opening Soon

Subhead: Licensed outpatient care for mental health and substance use is coming to Yonkers [in early 2027 / month — confirm].

Button: Get Notified When We Open

What we will offer

H2: What Our Yonkers Clinic Will Offer

[Confirm the planned services]: Mental Health Counseling · Outpatient Substance Use Treatment · Evaluations · Telehealth. Each links to its service page.

Until we open

H2: Need Help Before We Open?

You do not have to wait. Many of our services are available now by telehealth, and our Queens clinics in Rego Park and Fresh Meadows are welcoming new patients.

Buttons: Explore Telehealth · Call (718) 459-2558

Waitlist form

Name, phone, email (optional), "what can we help with". Clinic preset: Yonkers. Posts to CTM with source "Yonkers waitlist".

At opening (checklist for the upgrade)

☐ Address, phone, hours, photos, team

- ☐ Getting here: Metro-North / bus lines, parking
- ☐ Neighborhoods served in Yonkers and southern Westchester
- ☐ MedicalClinic schema, local FAQ, map
- ☐ Google profile live and linked to this page (Cristofer)
- ☐ Title and H1 lose "Opening Soon"

Needed before these pages go live

Location pages carry the most unconfirmed facts of any section, and a wrong address or hour hurts the map pack, so nothing in brackets ships as a guess.

From Emmanuel (via Julian)

- ☐ Exact Fresh Meadows address format and its phone number
- ☐ Hours for each clinic
- ☐ Services offered at each clinic (fills the comparison table and service cards)
- ☐ Transit, parking and accessibility for each clinic
- ☐ Neighborhoods patients actually come from
- ☐ Languages spoken by staff at each clinic
- ☐ Is Fresh Meadows "welcoming new patients"? Typical wait for a first visit
- ☐ Photos of each clinic (outside, entrance, waiting room, a counseling room)
- ☐ Yonkers: address, planned services, opening month
- ☐ Is telehealth available statewide or only for Queens residents?

From Cristofer

- ☐ Current Google profile names, categories and NAP for Rego Park, so the page matches exactly
- ☐ Fresh Meadows profile created with the same NAP as the page
- ☐ Each profile's website link set to its clinic page after launch

From Oriana

- ☐ One CTM tracking number per clinic, and which number goes in the schema
